OHS & Injury Management Reporting

St Francis has implemented the CompliSpace Assurance risk and compliance software system, which is designed to ensure that our OHS Management System (OHSMS) is effectively monitored, and that timely reporting of OHS information is provided to executive management.

Through the CompliSpace Assurance system, St Francis captures and reports on:

- OHS injuries and incidents;
- OHS compliance breaches;
- New hazard identification;
- Hazard risk assessments; and
- OHS Corrective Actions.

Formal OHS reports are provided to St Francis School's executive management team and the Advisory Board on a regular basis.
