Disability Discrimination

Disability Discrimination

Disability discrimination occurs when a person with a disability is treated less favourably than a person without a disability, in the same or similar circumstances.

The definition of disability includes a wide range of impairments including physical, intellectual, psychiatric, sensory, neurological and learning disabilities. It also covers discrimination against a person because of a physical disfigurement or a disease (e.g. Human Immunodeficiency Virus – HIV).

St Francis School's Policy

St Francis is committed to providing a safe and educationally supportive environment that values and encourages participation by all students and workers, including those with disabilities.

It is our policy that:

- students with disabilities can participate in education and training without discrimination
- students with disabilities have opportunities to access the School curriculum and achieve educational outcomes, in the same manner as students without disabilities
- reasonable adjustments will be made where necessary, to ensure students with disabilities are able to participate in all activities available to students without disabilities
- individualised programs will be developed for students with disabilities in consultation with parents/carers and relevant experts
- all processes are accessible and transparent
- disability discrimination prevention strategies are reviewed on an annual basis against best practice.

Discrimination, Harassment and Victimization

St Francis does not tolerate discrimination, harassment and victimisation of any type including disability discrimination.

This is achieved by:

- informing all staff and students that disability discrimination is not acceptable
- providing information and training concerning non-discriminatory methods of teaching
- ensuring staff and students are aware of appropriate actions to be taken if harassment or victimisation occurs
- establishing strategies and programs to prevent harassment and victimisation of persons with a disability
- ensuring strategies and programs extend to not only students but also to their parents/carers, who may experience discrimination as a result of their support role to a person with a disability, or who may have a disability themselves.

'Same Basis' Opportunities

The fundamental concept in operation at St Francis to prevent disability discrimination is the 'same basis' concept. This means treatment of students with a disability must be on the 'same basis' as students without a disability, when presented with opportunities and choices offered to students without disabilities.

Reasonable Adjustments

St Francis will provide reasonable adjustments upon consultation with the prospective student with a disability and their parents/carers to assist the student undertake education offered.

Whether an adjustment is reasonable will depend on balancing the student's learning needs with the interests of all parties affected, including those of the student with a disability, the School, staff and other students.

Depending on the needs of the student, adjustments may include modifications to School facilities, procedures and resources.

Modifications to enable student access to School facilities and participate in everyday School life include adjustments to toilets, ramps, safety railings, the gymnasium, computer rooms and laboratories to ensure students with disabilities can access these facilities safely.
